SUMMARY

.NET developer with hands-on experience building and deploying applications using ASP.NET Core, Angular, and React through intensive training at IDB-BISEW. Comfortable working across backend APIs and frontend interfaces, with a strong focus on clean, maintainable code. Looking to join a team where I can contribute to real projects and continue improving through practical experience.

SKILLS

Backend: ASP.NET Core, ASP.NET MVC, Web API, EF Core, C#, REST API, JWT Authentication
Frontend: Angular, React, HTML5, CSS3, Bootstrap, JavaScript
Database: SQL Server, Stored Procedures, Triggers, Transactions
Tools: Git, GitHub, Postman, Swagger, Visual Studio, VS Code

PROJECTS

Transport Management System

- Built secure RESTful APIs managing trips, drivers, and vehicles with JWT authentication, supporting modular and scalable backend design
- Integrated both **Angular Frontend** and **React Frontend** to demonstrate full-stack versatility
- Tested all endpoints using Postman ensuring production-ready reliability
- Technologies:** ASP.NET Web API, JWT, Angular, React, Bootstrap, SQL Server

School Management System

- Full-stack system handling admissions, attendance, results, and library modules
- Designed complete database schema with relationships and implemented authentication for 3 user roles
- Collaborated with team using Git, practicing clean code and regular code reviews
- Technologies:** .NET Framework, C#, SQL Server

Hotel Management System (Database-SQL)

- Architected complete database solution for hotel operations with complex business logic
- Wrote stored procedures, triggers, and transactions
- Designed schema handling bookings, payments, rooms, and staff with optimized queries
- Technologies:** SQL Server, Stored Procedures, Triggers

Selfcare Meets Beautify (E-commerce Admin Panel)

- E-commerce admin panel for product management with role-based access
